Weekly Workout Plan

Weekly Overview

This 4-day program alternates high-rep strength and conditioning circuits to boost aerobic capacity while maintaining muscular endurance for an advanced trainee.

Day 1 - Upper Body Endurance

Warm-up: 5 min rowing at moderate pace, followed by dynamic shoulder circles and band pull-aparts.

Exercise	Sets	Reps	Rest
Seated Cable Row (wide grip)	4	15	45 sec
Incline Dumbbell Press	4	12	45 sec
Cable Face Pull	4	20	45 sec
Push-up (weighted vest optional)	3	20	30 sec
EZ Bar Bicep Curl	3	15	30 sec
Tricep Rope Overhead Extension	3	15	30 sec

Day 2 - Lower Body Endurance

Warm-up: 5 min stationary bike, dynamic lunges, and hip circles.

Exercise	Sets	Reps	Rest
Front Squat (barbell)	4	12	60 sec
Walking Lunge (dumbbells)	4	20 (10 each leg)	60 sec
Romanian Deadlift (barbell)	4	15	60 sec
Leg Press	3	20	45 sec
Seated Calf Raise	3	25	45 sec
Hanging Leg Raise	3	15	30 sec

Day 3 - Full-Body Conditioning

Warm-up: 5 min jump rope, dynamic full-body stretches.

Exercise	Sets	Reps	Rest
Thrusters (barbell)	4	12	30 sec
Kettlebell Swings	4	20	30 sec
Pull-ups (weighted optional)	4	12	30 sec
Box Jump	4	10	30 sec
Battle Rope Waves	3	30 sec	30 sec
Farmer’s Walk (50 kg each hand)	3	40 m	45 sec

Day 4 - Upper Body & Core Conditioning

Warm-up: 5 min elliptical, arm swings, shoulder dislocations with PVC.

Exercise	Sets	Reps	Rest
T-Bar Row	4	15	45 sec
Overhead Press (barbell)	4	12	45 sec
Cable Lateral Raise	4	20	45 sec
Plyometric Push-up	3	10	30 sec
Pallof Press (cable)	3	12 each side	30 sec
Plank with Shoulder Tap	3	20 taps	30 sec

Rest & Recovery

Take the non-training days (e.g., Tuesday, Thursday, Saturday, Sunday) for active recovery: light walking, stretching, or mobility work. Stay hydrated, prioritize protein intake, and ensure 7–8 hrs of sleep per night to support endurance gains.
